If you have never used Badger's services, we urge you to dig up some of your discarded, worn out equipment and ship it to Owen, Wisconsin. You will be hard put to recognize it as your old scrap when we return it and the saving of cost over new is staggering. Remember – all our work is guaranteed to perform the same as new. Our customers agree in most cases not only looks, but is better than new!

We have a stock of used, rebuilt valves. These are guaranteed to look and perform the same as new. We also have new 1½" and 2" 10 FL Valves in stock to sell. Horizontal or vertical leak detectors. Call us at (800) 229-0381 for quote.

Customer Satisfaction Since 1955

– WE'D LIKE TO PROVE OUR CLAIMS –

Ship us your worn, discarded equipment.

This is what we do to them ...

VALVES: *Broken handles, nuts, studs and bottom plates repaired or replaced, threads cleaned, beveled ends reground, complete valve polished to mirror finish, ferrules (threads) replaced with any type you want.*

Rubber plugs can be replaced with new rubber plugs or we will manufacture a new stainless steel plug to fit your old body. (Stainless steel is more sanitary, and can always be rebuilt again and again at a very low cost.)

HOMO VALVES: *Refinished and reseated.*

HOMO PISTONS & SHAFTS: *Rebuilt with hard surface.*

PUMPS: *Damaged surfaces are restored to new specifications and worn rotors built up. Gear boxes are degreased, painted & assembled with the repairing of the shafts, installing new bearings, seals and shims.*

PUMP BACK-UP PLATES: *Entire seal surface replaced with heavier, longer lasting material at a cost considerably less than that of new plates.*

WRITE FOR A PRICE LIST – OR PHONE FOR DETAILS TODAY

All our work is guaranteed to look and perform like new.
